**Weather Summary/ Alert:**

During the upcoming days the region is expected to experience very light rainfall of 1-2 mm with maximum-minimum temperature of 21-23°C and 11-13°C, respectively. The wind is expected to blow from south-west and west-north-west direction with a speed of 8-10 kmph. Very light rainfall is likely to occur at a few places on 18 and 19th April. Dry weather is likely to prevail during rest of the period. A yellow warning regarding occurrence of thunderstorm with lightening/hailstorm and gusty wind (30-40 kmph) is likely to occur at isolated places on 19th April, 2024.

**General Advisory:**

A regular update regarding weather forecast and agrometeorological advisory is available on the “Meghdoot App” while “Damini App” is also available to get lightning information. Meghdoot and Damini apps can be downloaded from Google Play Store (Android users) and App Center (iOS users). The NDVI composite shows good agricultural vigour in the region. The extended range forecast system shows that the predicted trend from 12 April-18 April would observe large excess rainfall and below normal maximum and normal minimum temperature trend. Irrigation application and other farming operations should be scheduled as per the forecast and harvested produce should be stored well if left open in field.

**SMS Advisory:**

As per the forecast provided by India Meteorological Department, the farming activities should be scheduled accordingly and the harvest kept in the open should be stored well.

**Crop Specific Advisory:**

Crop (Varieties)	Stage	Crop Specific Advisory
Lentil/Field pea/ Yellow Mustard (Rada)	Harvesting	Harvest the mature crop and store well if kept in open. Schedule the farming activities as per the forecast.
Wheat	Harvesting	Harvesting of matured grains should be done and irrigation application should be avoided to prevent lodging in crops.

Rice	Sowing	Chetki dhan should be sown and the farming activities should be scheduled as per the available forecast.
------	--------	--

### Horticulture Specific Advisory:

Horticulture (Varieties)	Stage	Horticulture Specific Advisory
French bean/ Amaranthus/Fenugreek/ Garlic	Sowing	Sowing of Amaranthus/French bean/ Fenugreek/Garlic should be scheduled as per the available forecast.
Tomato/capsicum/ brinjal	Transplanting	The farming operations should be scheduled as per the forecast. Life saving irrigation should be provided and moisture conservation methods should be used to maintain moisture.
Pumpkin	Vegetative/fruiting	On the occurrence of leaf spot disease in cucurbitaceous (pumpkin class vegetables) crop, solution of mancozeb @ 2.5 g/lit of water should be sprayed.

### Live Stock Specific Advisory

Livestock	Live Stock Specific Advisory
Cow/Buffalo	If symptoms of mastitis are seen in dairy cattle, treat it immediately. Due attention should be given to arrangements for provision of water to animals. The drinking troughs should be kept clean and animals should be provided water at least four times during the day. To avoid heat waves provide proper ventilation.
