There is a warning of thunderstorm accompanied with hail and lightning at isolated places on 22 & 23 Jan. As per ERF, the rainfall will be below normal, maximum & minimum temperature will be normal & moderately below normal in the state from 26 January to 1 February.

General Advisory:

Farmers are advised to download the “Meghdoot App” to get past week weather, weather forecast, and agromet advisory and "Damini App" to get lightning information. Meghdoot and Damini Apps can be downloaded from the google play store (Android users) and App Center (IOS users). Present weather conditions are highly favourable to sclerotinial rot. This may appear in any crop plants by showing fluffy cottony growth leading to dry the plants. So infected plants must be removed and burn. Spraying of chemical should be done in clear weather.

SMS Advisory:

Light to moderate rain may occur from 22 to 24 January and there is a warning of thunderstorm accompanied with hail and lightning at isolated places on 22 & 23 Jan. Maintain proper drainage in field.
