

ISO Environmental Management (ISO/TC 207) Youth Leadership Group (YLG)

Formal international standards underpin the entire global economy. Hundreds of thousands of standards govern and guide the way that products and services are created and delivered in every industry, and all across the world. These standards need to manage environmental impacts, align with climate science and integrate climate action in order for the economy to successfully transition to net zero, society to develop sustainably, and for us to avert worsening environmental catastrophe.

That's where you come in! ISO's Environmental Management Committee is encouraging young people to join us in the advancement of critical standards that will help guide sustainable development and transition the global economy in response to climate change.

What will you get out of this?

- Learn valuable skills across the fields of environmental management, finance, communications and marketing, law and policy-making, graphics design, and education
- Network with other passionate young people, and with high profile sustainability professionals, from around the world
- Build your resume through participation in the formal international standards system
- Make an enormous impact in advancing environmental and climate action

Seize this unique opportunity to advance standards for environmental management!

Mentorship & Learning

Engage with leading experts and learn how to develop and apply ISO environmental standards

Advance Climate Action

Contribute to global climate action through the advancement of international environmental standards

International Networking

Be part of an international network of 20 high performance youth all advancing environmental action

COLLEGE OF BASIC SCIENCES & HUMANITIES**

No.: CBSH/MSCS/4579

Dated: 09-03-2024

All Deans/ Director Training and placement

This is with reference to an ISO programme for youth to participate in advancing critical standards for sustainable development. The programme is related to activities carried out by the ISO Technical Committee on Environmental Management (ISO/TC 207), which develops standards in the field of environmental management that are necessary to address environmental and climate impact, thus supporting sustainable development. The ISO Environmental Management Committee is seeking young people interested in sustainability issues and environmental progress through standardization, to establish a Youth Leadership Group. This international work group will cooperate with the Committee to advance critical standards that will have a major impact in driving sustainable development and the transition of the global economy in response to the challenges posed by climate change.

The ISO/TC 207 initiative is free of charge and can involve a maximum number of 40 students aged between 18 and 25, enrolled in a university education programme in the fields of *environmental management, finance, communication and marketing, law and politics, graphic design and education.* The young participants will be involved in a one-year programme. They will be required to contribute approximately 10 hours per week. As part of the programme, students will have the opportunity to: - cooperate with experts and professionals in the field of sustainability, thus learning to master and apply environmental ISO standards; - actively contribute to climate-related action through the advancement of international environmental standards; - create contacts and collaborations with a network of young people from all over the world who actively promote climate action. ISO Information Flyer on the subject is attached herewith for kind reference.

In view of the above, SCMD is requested to seek nominations of interested students from BIS MoU institutions (B.Tech/ M.Tech/ Ph.D. scholars in above specified subject areas) who are willing to work with ISO/TC 207 to advance standards for environmental management. The interested scholars need to submit the filled application in the format attached herewith.

Interested candidates submit their applications latest by **12 March 2024 by the email to sbsingh.bpm@gbpuat.ac.in** for scrutiny by IR&TISD. In case of any queries, please feel free to contact the undersigned. Details of "ISO/TC207/SC7 Youth Leadership Program" is also available at <https://www.gbpuat.ac.in>
